I. INFORMATION ABOUT THE COMPANY

PEERBERRY d.o.o., Zagreb (hereinafter: the Company), OIB 15815815647, MBS 081265885 was founded according to the laws and regulations of the Republic of Croatia as a limited liability company.

Seat: Business Centre SKY OFFICE, 20th floor of the Tower B, Roberta Frangeša Mihanovića 9, Zagreb, Croatia

Administration: Lekavičius Arūnas, Director of the Company

Principal activity: Other financial services, except insurance and pension funds, n. e. c.

II. BASICS OF COMPILING FINANCIAL REPORTS

The Company's financial reports are prepared in accordance with Croatian financial reporting standards adopted by the Committee for Financial Reporting Standards based on the provisions of the Accounting Act. The provisions of the current Accounting Act and Croatian Accounting Standards apply to the financial statements in 2022. Financial statements are compiled on the basis of the past expenses, and more detailed specifics are given next to each entry in the statement.

Financial statements present a true and fair financial position, financial performance and cash flows of the operator. The outcome of transactions and other business events are faithfully presented, and are in accordance with the criteria for registration of assets, obligations, capital, income and expenses.

III. SUMMARY OF THE MORE SIGNIFICANT ACCOUNTING POLICIES

The following is a description of the more significant accounting policies adopted for the preparation of these financial reports. These accounting policies have been applied consistently for all periods included in these reports, except where otherwise stated.

Future events and their impact cannot be predicted with certainty and, accordingly, accounting estimates require judgment, and those used in the preparation of financial statements are subject to change due to the occurrence of new events, obtainment of additional information and change of the environment where the company operates, which may result in deviations from the estimates made.

Fixed intangible assets

Intangible assets are non-monetary assets without physical characteristics that can be identified, and consist of development expenditures, patents, licenses, concessions, trademarks, computer programs (software), licenses, franchises and other rights, goodwill, deposits for intangible assets and other intangible assets. Intangible assets are acknowledged only in the case of:

- the flow of future economic benefit
- reliable estimate of acquisition cost

After initial acknowledgement, the intangible assets are measured at acquisition cost minus value adjustments and accumulated losses. The company may decide to report fixed intangible assets whose fair value can be reliably measured at the revalued amount after the initial acknowledgement of the assets. If a certain fixed intangible asset is revalued, all non-current intangible assets from the same group are also measured using the revaluation method. Depreciation of fixed intangible assets is calculated using the straight-line method over an expiration date of four years (rate 25%). If the Company decides, the increased depreciation rates are applied in accordance with the provisions of the Law on Profit Tax. Exceptionally, the intangible assets with an indefinite expiration date are not depreciated, but tested for decrease in value.

Fixed tangible assets

Fixed tangible assets include the assets that the Company uses for the delivery of goods and services and for administrative purposes and whose estimated expiration date is longer than one year. These assets are initially included in the balance sheet at acquisition cost, which includes the net purchase price and all other dependent costs until the assets are put into use. After initial inclusion, fixed assets are measured at acquisition cost minus value adjustments and accumulated decrease in value losses in accordance with HSFI 6. The Company may decide to report tangible fixed assets whose fair value can be reliably measured at the revalued amount after initial inclusion

of the assets. If individual fixed tangible assets are revalued, all fixed tangible assets from the same group are also measured using the revaluation method.

Depreciation of fixed tangible assets is calculated using the straight-line method in the estimated lifetime of each individual asset using the following rates:

| Buildings | 5% |
|-------------------------------|-----|
| Personal vehicles | 20% |
| Equipment | 25% |
| Delivery vehicles | 25% |
| Mechanical equipment | 25% |
| Computer equipment | 50% |
| Telecommunication equipment | 50% |
| Other non-specified equipment | 10% |

If the Company decides, the increased depreciation rates are applied in accordance with the provisions of the Law on Profit Tax.

The land and other assets that have an unlimited lifetime (art works, etc.) and assets under construction are not depreciated.

The subsequent expenditures are included in the accounting value of the assets or, according to the need, included as a separate asset, only if the Company will have future economic benefits from the asset and if the acquisition cost can be reliably measured. The accounting value of the replaced part ceases to be included. All other investment and current maintenance costs are included in the profit and loss account in the period in which they were incurred. The depreciation is calculated using the straight-line method.

The profit or losses from the exclusion of fixed tangible assets (sale, disposal, etc.) are determined as the difference between the implemented sales price and the accounting value and are included in the item business income or business expenses in the profit and loss statement.

Investment in real estate

Real estate (land or a building, or part of a building, or both) held by the company for the purpose of obtaining the rental income or for the purpose of increasing the market value is treated as an investment in real estate in accordance with HSFI 7. When determining the value of investment in real estate, the acquisition cost model is applied.

Fixed assets intended for sale

Fixed assets held for sale are assets whose accounting value will be recovered through sale and not through use, provided that such sale is highly probable within a period of one year. The inclusion and measurement are performed in accordance with the provisions of HSFI 8.

Financial assets

The financial assets include stocks and shares, granted loans, participating interests, investments in securities, granted credits, deposits and guarantee deposits, and other financial assets. The financial assets are not depreciated. The inclusion, measurement and exclusion are performed in accordance with the provisions of HSFI 9.

Supplies

Supplies include supplies of small inventory, car tires, packaging and merchandise. They are measured at acquisition cost or net marketable value, in accordance with HSFI 10. The calculation of supply costs is carried out using the weighted average cost method. The accounting amount of supply is included as expenditure in the period in which the inventory is sold or excluded. Supplies of small inventory and car tires are written off at 100% when put into use.

Receivables

The receivables are initially measured at fair value. The inclusion, measurement and exclusion are performed according to the provisions of HSFI 11.

The adjustment of the value of receivables is carried out when there is an objective evidence that the company will not be able to collect all its receivables according to the agreed terms. The significant financial difficulties of the

debtor, the possibility of the debtor's bankruptcy and non-performance or defaults in payments are considered as the indicators of decrease in value of receivables from customers.

The amount of the value adjustment is determined as the difference between the accounting value and the recoverable amount of the receivables. The accounting value of the asset is reduced by calculating provisions for decrease, and the amount of the loss is included in the income report under "value adjustments". When the receivable is not collectable, it is written off at the expense of the calculation of provisions for receivables from customers.

Capital and reserves

The capital consists of registered capital, capital reserves, profit reserves, revaluation reserves, fair value reserves, retained earnings or transferred loss, profit or loss of the current year and minority (non-controlling) interests. The inclusion, measurement and exclusion are performed according to the provisions of HSFI 12.

Obligations

The obligations are initially measured at fair value. The inclusion, measurement and exclusion are performed according to the provisions of HSFI 13.

The obligations are classified as short-term and long-term. The obligations are classified as short-term obligations, unless the Company is entitled to postpone the settlement of the obligation for a period longer than 12 months. The obligations are included when it is likely that the settlement of the current obligation will lead to an outflow of the operator's resources. The obligations to suppliers and employees and obligations for deposits are measured by the amount to be settled.

Reservations

The reservation is an obligation whose nature is clearly defined and which on the balance sheet date it is probable or certain to occur, but there is uncertainty as to the amount or date when it will occur. The inclusion and measurement are carried out in accordance with HSFI 13.

Accruals

The accruals include prepaid expenses, overdue revenue collection, deferred payment of expenses and future period revenue. The accruals are measured in accordance with HSFI 14.

The prepaid expenses are recognized as assets when they relate to amounts paid in the current period and which relate to future periods. The deferred payment of costs is included as an obligation when it refers to costs incurred in the current period, for which the conditions for inclusion as an obligation have not been met.

Current profit tax

The amount of profit tax for the current year is calculated on the basis of the tax law in force in the Republic of Croatia on the balance sheet date. The current tax will be charged to capital if the tax refers to items that are directly charged to capital in the same period.

Value added tax

The tax regulations require VAT to be recorded on a net basis. VAT arising from sales and purchase transactions is included and reported on the balance sheet on a net basis.

Deffered tax assets

The deferred tax assets and obligations are measured using the tax rates (and tax laws) in effect on the balance sheet date. The deferred tax assets are included for transferred unused tax losses, unused tax credits and any deductible temporary differences to the extent for which taxable profit will be available and against which the transferred tax loss, unused tax credits and deductible temporary differences can be utilized, in accordance with the provisions of HSFI 14.

Revenues

The revenues are included when it is probable that future economic benefits will accrue for the operators and when they can be reliably measured. The inclusion, measurement and exclusion are performed according to the provisions of HSFI 15.

The revenues according to HSFI 15 are divided into operating income and financial income. The revenues consist of the fair value of fees received or receivables for services sold during the company's regular operations. The revenues are expressed in amounts minus value added tax. The company includes the revenues when the amount of income can be reliably measured and when it is certain that the company will have future economic benefits.

The provisions of the Accounting Act, as well as HSFI 15, stipulate from the 2022 report that extraordinary revenues are not reported separately, and extraordinary revenues from previous years are expressed as business revenues.

Expenditure

The expenditure is included when a reduction in future economic benefits results from a reduction in assets or an increase in obligations that can be reliably measured, i.e. when they arise simultaneously with the inclusion or reduction of assets, based on a direct connection between incurred costs and certain revenues. The inclusion, measurement and exclusion are carried out according to the provisions of HSFI 16.

Values expressed in financial reports (amounts)

The items included in the company's financial reports are expressed in the currency of the primary economic environment where the company operates (functional currency). The financial reports are presented in Croatian kunas that represents the functional and reporting currency of the Company.

On the balance sheet date, the supplies and fixed assets in foreign currency are expressed using the mean exchange rate of the CNB on the date of the transaction, and receivables and liabilities in foreign currency using the middle exchange rate of the CNB on the balance sheet date.

IV. OPERATORS WITHIN THE GROUP AND PERSONS WITH COMMON INTEREST

The operators within the group are considered to be two or more operators who are related in terms of ownership, and who have an investment in shares/stock of more than 50% or have received this capital (subsidiaries). The companies linked by common interest are the companies whose share in the capital of another operator amounts to 20-50% or companies that have received capital up to that amount from another operator (common interest).

All possible transactions with affiliated companies on the basis of received/given loans and credits and the delivery/acquisition of goods and services are expressed on the PD-IPO form with a detailed description of transactions.

V. BALANCE SHEET

ASSETS

FIXED ASSETS

Note No. 1

The company's fixed assets consist of intangible assets, fixed tangible assets, fixed financial assets, fixed receivables and deferred tax assets.

Fixed assets on the reporting date amounted to HRK 37,068.

Tangible assets

Note No. 2

The tangible assets consist of machinery and equipment.

| Tangible assets | Machinery and equipment |
|-----------------|-------------------------|
| | Amount in HRK |
| Purchase value | |
| On 01.01.2022. | 0 |
| Increases | 41,774 |
| On 12.31.2022. | 41,774 |
| | |
| Depreciation | |
| On 01.01.2022. | 0 |

| Expenses for the year | 4,707 |
|-----------------------|-------|
| On 12.31.2022. | 4.707 |

Net accounting value

| On 12.31.2022. | 37,068 |
|----------------|--------|
| On 12.31.2021. | 0 |

The depreciation of tangible assets (correction of value) is calculated according to its lifetime, using the linear method and applying rates in accordance with accounting policies.

CURRENT ASSETS

Note No. 3

The company's current assets consist of assets that are collectable within a year, and consist of inventories, supplies, current financial assets and cash in the bank and treasury.

The current assets on the day of reporting amounted to HRK 32,910,461.

Short-term receivables

Note No. 4

The short-term receivables consist of receivables for delivered goods and services, receivables from employees and members operators, receivables from the state and other institutions, and other receivables that are expected to be converted into cash within one year.

The short-term receivables on the day of reporting amounted to HRK 5,473,637.

The short-term receivables for delivered goods and services

The short-term receivables for delivered goods and services and other receivables are broken down into receivables from operators within the group, from companies linked by common interest and from unrelated persons.

The short-term receivables for delivered goods and services on the reporting date amounted to HRK 5,464,562.

| Description | 31.12.2021. | 31.12.2022. | Index 2022/2021 |
|----------------------------|-----------------|---------------|--------------------|
| Receivables from customers | HRK 2,361,204 | HRK 5,464,562 | HRK 231.43 |
| TOTA | L HRK 2,361,204 | HRK 5,464,562 | |

Other short-term receivables

Other short-term receivables consist of receivables acquired through cession or some other type of contract.

The short-term receivables on the reporting date amounted to HRK 9,075.

Current financial assets

Note No. 5

The current financial assets consist of investments in shares/stocks and securities, given loans, deposits etc., as well as other financial assets that are expected to be converted into cash within one year.

On the reporting date, the Company's current financial assets amounted to HRK 1,032.

Money in bank or treasury

Note No. 6

On the reporting date, the amount of money in the bank in kuna and foreign currency account balances and money in the treasury amounted to HRK 27,435,792.

Paid expenses of the future period and accrued income

Note No. 7

On the reporting date, the expenses paid for the future period and the calculated income amounted to HRK 4,442.

LIABILITIES

Capital and reserves

Note No. 8

According to the standards of financial reporting, capital and reserves consist of registered capital, capital reserves and reserves from profit, revaluation reserves, reserves of fair value, retained profit and transferred loss, current period profits or losses, and minority interests.

On the day of reporting, the Company's capital amounted to HRK 6.918.925.

Core (registered) capital

Note No. 9

The Company's core capital amounted to HRK 20,000 and the entire amount was recorded with the responsible commercial court.

Retained profit

Note No. 10

The state of retained profit on the reporting day as a result of previous business of the Company amounted to HRK 1,911,622.

Business year profit

Note No. 11

In the business year, the company achieved a net profit in the amount of HRK 4,987,303. The proposed distribution of profit was adopted by the Company in the Decision on distribution of profit, which is part of the public publication of annual financial statements for the given business year and is publicly available.

Short-term obligations

Note No. 12

The short-term obligations refer to obligations with a maturity of less than one year.

On the reporting date, the company had short-term obligations in the amount of HRK 26,012,898.

Short-term obligations for the acquired goods and services

Total short-term obligations for acquired goods and services amounted to HRK 459,563.

The Company had no short-term obligations towards operators within the group and/or to companies linked by common interest on the basis of goods and services received.

Short-term obligations towards employees

The short-term liabilities to employees refer to accrued and unpaid net salaries, benefits and similar obligations.

The short-term obligations to employees on the reporting date totaled HRK 7,325.

Short-term obligations for taxes, fees etc.

The short-term obligations for taxes, fees etc. refer to accrued and unpaid obligations.

The short-term obligations for taxes, fees etc. on the reporting date totaled HRK 992,196.

Other short-term obligations

Other short-term obligations of the Company on the reporting date amounted to HRK 24,553,814.

The same applies to NET obligations towards investors and users of funds who invest through the platform https://peerberry.com/

PeerBerry acts as a service provider that, through a platform, connects investors and people who develop projects where the investors want to invest. In order for the service to be provided through the platform that connects them, the funds of investors and people who develop projects pass through the bank account of PeerBerry d.o.o.

PeerBerry exclusively acts as an intermediary who provides a matching service and implements the requests of both parties without entering into the relationship between the parties.

Deferred payment of expenses and profit of the future period

Note No. 13

On the reporting date, the company had calculated the deferred payments of costs and/or income for the future period in the amount of HRK 20,148.

Risk management

This item presents basic information about business risks that may occur and ways to control them.

Market and price risk

The company generates its revenues entirely outside the Republic of Croatia. During the current year, the company achieved positive EBITDA and profit after taxation.

The war in Ukraine had an impact on the Company's operations, since part of the projects offered through the platform were developed in Ukraine. So far, the Company has not felt a significant impact of the war in Ukraine on current operations.

Interest risk

The interest rate risk arises from possible changes in the level of interest rates on the capital market, which also affects the decision of investors whether to invest their funds in investments or to invest funds in banks. The rise in interest rates on the European market would have an impact on the level of investments through the Company's platform.

Credit risk

The credit risk refers to the situation when the counterparty (debtors) become insolvent, i.e. when they cease to be able to meet their obligations on time and effectively. Under such risk, the most receivables are from customers. The company continuously monitors the collection of receivables and uses various financial instruments to ensure the collection, and takes the necessary measures to raise the collection level and reduce the average number of collection days with the aim of reducing credit risk.

Change of exchange rate risk or currency risk

The company is exposed to the risk of exchange rate changes through transactions in foreign currencies. The risk consists in whether a possible change in the exchange rate will significantly affect the movement of results and cash flow.

Obligations to suppliers and receivables from customers are mostly linked to the EUR exchange rate.

Starting with January 1, 2023, the Republic of Croatia changed its currency from the Croatian kuna to Euro. The Euro became the functional and presentational currency in 2023. The change in the functional and presentation currency in 2023 has no significant impact on these financial statements, and the conversion was made at a fixed exchange rate of 1 EUR=7.53450 HRK.

It is expected that this change will have a positive impact on the Company's future operations because most suppliers and customers do business in EUR currency.

Business events after closing the balance sheet

The war in Ukraine had an impact on the Company's operations, since part of the projects offered through the platform were developed in Ukraine.

Apart from the above, there were no other significant events after the balance sheet date that would have an impact on the business result of the business year, nor events that would have an impact on the structure of the Company's balance sheet.

VI. PROFIT AND LOSS CALCULATIONS

Business revenues

Note No. 14

The business income consists of sales income.

In the business year 2022, the Company achieved the revenues from sales in the amount of HRK 13,544,910.

In the business year, there were no revenues from sales to operators within the group.

| Entry title | 2021 | 2022 | Index 2022/2021 |
|---------------------|---------------|----------------|--------------------|
| Revenues from sales | HRK 3,694,204 | HRK 13,544,910 | 366,65 |
| TOTAL | HRK 3,694,204 | HRK 13,544,910 | |

Business expenses

Note No. 15

Business expenses consist of material expenses, personnel expenses, depreciation, other expenses and other business expenses.

In 2022, the Company reported business expenses in the amount of HRK 7,452,775.

| Entry title | 2021 | 2022 | Index 2022/2021 |
|-------------------------|---------------|---------------|--------------------|
| Material expenses | HRK 1,533.291 | HRK 7,270,893 | 474,20 |
| Personnel expenses | HRK 41,884 | HRK 167,536 | 400,00 |
| Depreciation | - HRK | HRK 4,707 | |
| Other expenses | HRK 672 | HRK 259 | 38,54 |
| Other business expenses | - HRK | HRK 9,380 | |
| TOTAL | HRK 1,575,847 | HRK 7,452,775 | |

Material expenses

The material expenses consist of expenditures on raw materials and materials, expenses of goods sold and other external expenses.

During the business year, the material expenses amounted to HRK 7,270,893.

| Entry title | 2021 | 2022 | Index 2022/2021 |
|---------------------------------------|---------------|---------------|--------------------|
| Expenses of raw material and material | - HRK | 116 HRK | |
| Other external expenses | HRK 1,533,291 | HRK 7,270,777 | 474,19 |
| TOTAL | HRK 1,533,291 | HRK 7,270,893 | |

The expenses of raw materials include used raw materials and other materials, used energy, used spare parts, write-off of small inventory, etc.

The expenses of raw materials and materials amounted to HRK 116.

The external expenses include such expenses as transport services, postal and telecommunication services, the expense of external finishing, the expense of service and maintenance, the expense of rent and leasing, the expense of advertising, trade fairs and sponsorships, the expense of intellectual and other services, the expense of utility services, the expense of mediation services and other similar services.

Other external expenses amounted to HRK 7,270,777.

Expenses on personnel

The personnel expenses refer to the expenses on net salaries and wages, the expenses on taxes and contributions from wages and the expenses on fees.

In 2022, personnel expenses amounted to HRK 167,536.

| Entry title | 2021 | 2022 | Index 2022/2021 |
|---------------------------------------|------------|-------------|--------------------|
| Net salaries and wages | HRK 21,974 | HRK 87,895 | 400,00 |
| Expenses on tax and fees for salaries | HRK 13,978 | HRK 55,913 | 400,01 |
| Fees for salaries | HRK 5,932 | HRK 23,728 | 400,00 |
| TOTAL | HRK 41,884 | HRK 167,536 | |

Depreciation

Depreciation was evaluated in accordance with the Company's accounting policies and the decisions of the Company's management.

In the business year, the cost of depreciation amounted to HRK 4,707.

Other expenses

Other expenses include insurance premiums, banking services and payment transaction costs, health services, right-of-use costs, membership fees, tax expenses that do not depend on profit and other intangible business costs.

In the business year, the Company has a total of HRK 259 of other expenses.

Other business expenses

The Company has other business expenses in the amount of HRK 9.380 in the business year.

Financial revenues

Note No. 16

Financial income consists of income from investments in shares/stock of operators, interest, exchange rate differences and other financial income from relations with operators and financial institutions.

In 2022, the company achieved the financial income in the amount of HRK 97,310 related to exchange rate differences.

Financial expenditures

Bilješka br. 17

The financial expenditures refer to interest, exchange rate differences and other expenditures, unrealized losses (expenditure) from financial assets, net value adjustments of financial assets and other financial expenditures.

In 2022, the Company had financial expenses in the amount of HRK 107,162.

| Entry title | 2021 | 2022 | Index 2022/2021 |
|---|------------|-------------|--------------------|
| Expenditure from interest etc. | HRK 24 | HRK,323 | 1345,83 |
| Current exchange difference and other expenditure | HRK 27,774 | HRK 106,839 | 384,67 |
| TOTAL | HRK 27,798 | HRK 107,162 | |

TOTAL REVENUES

Note No. 18

In the business year 2022, the Company achieved total revenues of HRK 13,642,221.

TOTAL EXPENDITURE

Note No. 19

In the business year 2022, the Company had total expenditure in the amount of HRK 7,559,937.

PROFIT TAX

Note No. 20

The profit tax in accordance with the Croatian Law on Profit Tax is calculated by applying the prescribed rate to the taxable base. The tax base is increased and decreased according to the regulations specified in the Law on Profit Tax

| Entry title | 2021 | 2022 | Index 2022/2021 |
|--------------------------|---------------|---------------|--------------------|
| Profit before tax | HRK 2,124,025 | HRK 6,082,284 | HRK 286,36 |
| Profit tax | HRK 212,402 | HRK 1,094,981 | HRK 515,52 |
| Profit during the period | HRK 1,911,623 | HRK 4,987,303 | HRK 260,89 |

VII. ACCEPTANCE AND PUBLICATION OF FINANCIAL REPORTS BY COMPANY MANAGEMENT

Publication of financial reports

The management of the Company approves their publication with its certification on the basis of the decision of the Meeting on determining the annual financial reports for the business year 2022.

| Person responsible for compiling notes: | Director: |
|---|-------------------|
| Bariša Primorac | Lekavičius Arūnas |
